

NE Post-School Outcomes Data 2007-2010

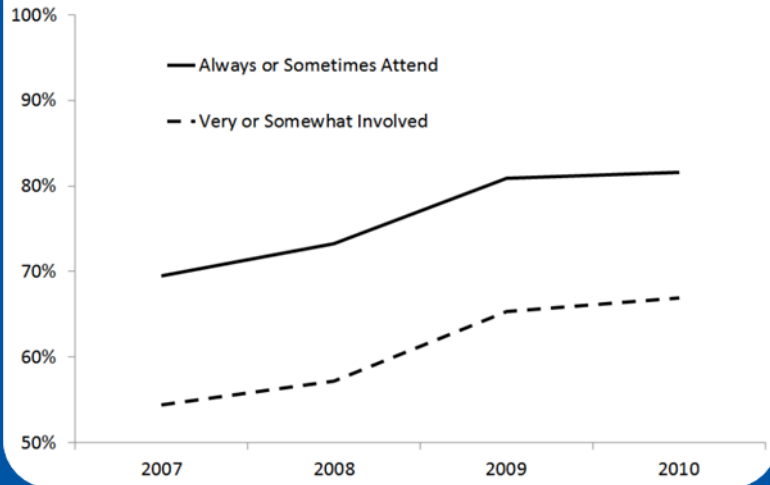

April, 2011

The following results highlight trends in Nebraska's Post-School Outcomes Project. This data was collected from youth who had an Individualized Education Program (IEP) while in school. Telephone interviews were conducted with these youth approximately one year after high school exit. Visit <http://ndetransition.site.esu9.org/ne-post-school-outcomes/> to learn more about this project.

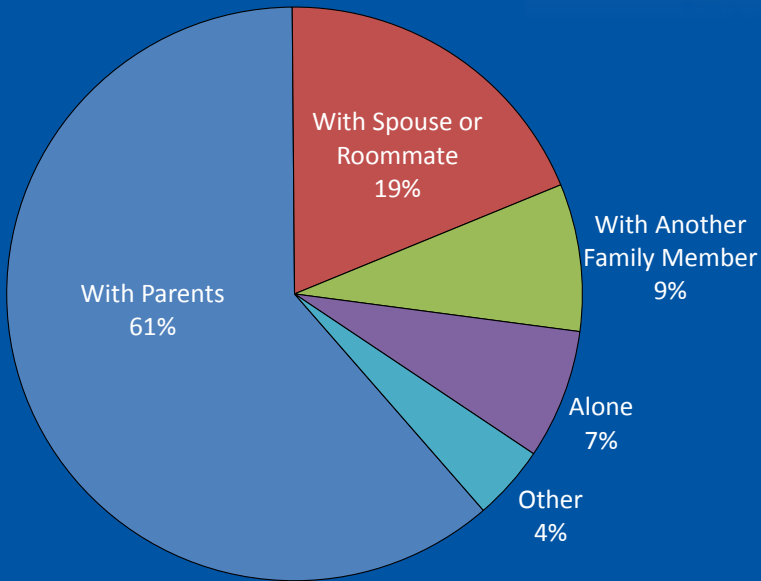

What parts of your high school program were most helpful in preparing you for life after high school?

Attendance and involvement of respondents in their high school IEP meetings

Do you currently live...

Percentage of respondents who received tutoring, extended time on tests, note takers, or other assistance
